## Deirdre Oakley To Compete In World Championship Horse Show

*Saddlebred Rider Rekindles Childhood Dream After 22 Years*

by Keri McAlpine

Deirdre Oakley's love for horses began at a very young age.

She was raised on an 80-acre farm in Minnesota where her father, an airline pilot, also bred American Saddlebred horses.

After a childhood of showing horses, Oakley put away the reins after graduating high school to pursue college and a family life. She moved to Dade City with her three children in 1995.

After a 22-year hiatus and not showing horses since she was 17, Oakley saddled up again and has been taking horse shows by storm.

Oakley recently qualified for the world championships to be held in Louisville, Ky., in August following an April show in Perry, Ga. Shortly after, she took home first place in the Ladies Amateur Three-Gaited Class at the Championship at the Asheville Lions Club Benefit Horse Show in Asheville, N.C. about two weeks ago.

Oakley has been competing with her newest of at least five American Saddlebred horses, named Samur's Cover Girl, a two-time world champion horse who is helping to bring Oakley to the next level.

Samur's Cover Girl was a Christmas gift for Oakley from her husband, County Commissioner Ron Oakley,

## Clanahan Wins State Titles

*Will Attend University Of Florida In The Fall*

by Jeff Hupp

Owen Clanahan of Dade City took home two state medals in the 100-meter and 200-meter dashes while running for Bishop McLaughlin Catholic High School.

Clanahan, a senior, captured gold with blistering times of 11.03 in the

100-meters and 21.96 in the 200-meters, which was his second championship of the day.

The FHSAA Track & Field Finals were held at the IMG Academy in Bradenton on May 5 and 6.

who represents District 1.

"I've never had a horse like her. I've had nice horses, but this one is just super special," Oakley said.

Ron Oakley said it has been fantastic to see his wife living out her dream of returning to the American Saddlebred show world. A newbie to this world himself, he added he has learned a lot in the process.

"I'm very proud of her and very proud of the animals we've got that she's riding and she's working with. She's done well with all of her horses," Ron Oakley said.

Oakley and her horses train at Judd Stables in Land O' Lakes, where trainers Maria Gilman and stable owner Don Judd have been working with her for about two months. The horses are trained six days a week, with Sundays off. Oakley spends hours at the stables twice a week, making rounds and practicing technique in the stables' center ring.

"She's a very strong rider, has a lot of talent," Gilman said. "We're excited about developing that talent and helping her a little bit with the type of riding we do, and helping take her to the top level of the Saddlebred industry."

They try to not focus on the upcoming world

championship too much and carry out practices as normal, Gilman said. The fact that Oakley has a handful of horses to learn on helps her develop her riding skills, the trainers said. Gilman and Judd constantly use noise makers and other distractions while Oakley is riding to simulate distractions presented during actual competition.

"There's always a lot to learn so we never get cocky about it. This is the kind of sport you never feel like you've learned everything," Gilman said. "But we still feel like we have a great product between her riding and the horses we have and we're excited about the future."

While she did take a break from showing horses, Oakley did not totally shy away from the equestrian world during her hiatus. She continued to ride horses recreationally, and built her own farm off St. Joe Road where she helped rescue and rehabilitate at least 100 former show horses.

"My horses are my sanity. It's fun, it's exhilarating, it's calming, it's exciting, it's everything. You either have the horse bug or you don't. I've had it since I was born," she said. "It's always been my love and my passion. I understand them better than I understand a lot of people."

300-meter hurdles, but after heavy discussions with head track coach Lewis Mabrey, we felt sprints would be my best chances to win," Clanahan said.

"Coach Mabrey was such a great coach and he helped me tremendously during my time at Bishop. He pushed me to get faster and without the hurdles I obtained

my goals," Clanahan said.

He also starred on the boys' soccer team and ran cross country during his four years at Bishop McLaughlin.

Clanahan began his track career when he was a freshman. He started with field events, became a champion hurdler and mainly ran distance events.

He is the son of proud parents Paulette and Dan Clanahan who he said always pushed him to do better. His parents always attended his meets and games

throughout his high school career, Clanahan noted.

Clanahan is no slouch in the classroom either and graduated with a 4.23 GPA his senior year.

He will be attending Florida State University in the fall.

In order to focus on his grades in college, Clanahan will be giving up his running cleats. However, he said he isn't ruling out a return as a walk-on if the fever ever comes back.

# Nursing Center Urges Governor To Sign State Budget

## Prospective Payment System Expected To Improve Quality

by Keri McAlpine

Caregivers from local nursing centers convened on May 31 at Heritage Park Health & Rehabilitation to celebrate the quality care being delivered in Florida's nursing centers.

More than 50 Heritage residents, staff and family members were present for the event organized by Florida Healthcare Association.

More than 500 signatures gathered from across the state at events like the one at Heritage Park on May 31 were delivered to Governor Rick Scott on June 2.

The meeting was also used to raise awareness of a pending Florida bill and to urge Gov. Rick Scott to sign the state budget including a Prospective Payment System.

FHA has been touring the state visiting multiple nursing homes, and ultimately gathered more than 500 petition signatures which were delivered to Scott on June 2, said FHA spokeswoman Kristen Knapp. The bill in question, Senate Bill 2514, the Medicaid Conforming Bill, passed the legislative session and was presented to Scott on June 5.

The bill proposes nursing centers no longer get reimbursed equally as it has been for the past 30 years, but rather depending on the quality of care provided with a Prospective Payment System, Knapp said. Set to be implemented in Oct. 1, 2018, upon the Governor's signature, the PPS is expected to improve the current, cost-based nursing center reimbursement system. This will be accomplished by increasing accountability and enhancing return on the state's investment in nursing center care by ensuring money is spent on direct care and quality improvements.

The PPS would also provide incentives

for facilities to renovate or improve their buildings, expand living quarters, and improve technology, among many viable options.

"Florida is a national leader in providing long term care services and supports to its senior population, and a stronger reimbursement system is best for

everyone involved," said Bob Asztalos, chief lobbyist of the Florida Health Care Association. "Our goal is to send Gov. Scott a message that PPS equals quality, and nursing centers across Florida continue to be united about the new payment system which will reward them for the high-quality care they deliver."

## Final Notice and Public Explanation of a Proposed Activity in the 100-Year Floodplain and Wetland

**Date:** June 8, 2017  
**City of Dade City**  
**38020 Meridian Avenue**  
**P. O. Box 1355**  
**Dade City, FL 33526-1355**  
**Telephone Number: (352) 523-5050**

To: All interested Agencies, Groups and Individuals

This is to give notice that the City of Dade City has conducted an evaluation as required by Executive Orders 11988 and 11990 in accordance with HUD regulations at 24 CFR 55.20 to determine the potential affect that its activity in the floodplain and/or wetland will have on the environment.

The City of Dade City intends to undertake a project to be funded by a Florida Small Cities Community Development Block Grant (CDBG). This funding will be allocated to combine and expand two (2) existing storm water retention ponds.

It has been determined that no practicable alternative other than to proceed with the work is available. This activity will have no significant impact on the environment for the following reason:

A portion of the project may be located in a floodplain. The City anticipates no additional impervious surface within the floodplain will be created by the project. If additional impervious surface is created by the project, drainage improvements to compensate for the additional impervious surface that will be created within the floodplain will be included in the project.

Although a portion of the project may be located in the 100-year floodplain and/or wetland, the improvements cannot be undertaken in any other location due to the scope of the project. There is, therefore, no practicable alternative than to continue with the project.

The proposed improvements conform to applicable floodplain protection standards. The proposed action will not affect natural or beneficial floodplain values, and residents of the community will benefit from the project. The proposed project involves the following Activities:

031-Flood and Drainage Improvements - The project will expand two (2) existing storm water retention ponds into one large storm water pond creating a larger storage capacity. A total of 8.2 acres. The Western end of Beauchamp Avenue will become a dead end street and will terminate east of the enlarged retention pond. After the ponds are combined, an exercise trail will be constructed around the perimeter of the pond. Due to combining both ponds, an existing sanitary sewer line will be re-aligned under the proposed boardwalk to accommodate the retention ponds and the elevation of an existing sanitary sewer manhole located in the Beauchamp Avenue right-of-way will be raised.

Total CDBG Cost – Flood and Drainage Improvements (\$644,000), Administration (\$56,000) = \$700,000  
 Total City/Local Match- Flood/Drainage Improvements (\$15,000), Engineering Bidding and Inspections (\$35,000) = \$50,000  
 Total CDBG and City's Local Match- \$750,000

Failure to provide these improvements would result in the City of Dade City not being able to carry out the activities in the project.

Additional agencies involved in this project include the Florida Department of Economic Opportunity, the City of Dade City and the U.S. Department of Housing and Urban Development.

Written comments must be received by Heather Washburn, Project Manager, at the City of Dade City, 38020 Meridian Avenue, Dade City, FL 33525 on or before June 16, 2017. A more detailed description of the project and the Federal Insurance Administration (FIA) flood maps are available for citizen review by contacting the local government.
